2009 Data Breach Stats - Known vs. Unknown Totals

Report Date:

1/6/2010

Page 1 of 1

Category: None - Encrypted Data

Totals for Category: None - Encrypted Data	# of Breaches: 4	# of Records: 0
	% of Breaches: 0.8%	%of Records: 0.0%

Category: None - Other Protection

Totals for Category: None - Other Protection	# of Breaches: 2	# of Records: 0
	% of Breaches: 0.4%	%of Records: 0.0%

Category: Yes - (Password) Published#

Totals for Category: Yes - (Password) Published#	# of Breaches: 18	# of Records: 1,325,785
	% of Breaches: 3.6%	%of Records: 0.6%

Category: Yes - (Password) Unknown#

Totals for Category: Yes - (Password) Unknown#	# of Breaches: 11	# of Records: 0
	% of Breaches: 2.2%	%of Records: 0.0%

Category: Yes - Published #

Totals for Category: Yes - Published #	# of Breaches: 213	# of Records: 221,151,258
	% of Breaches: 42.8	%of Records: 99.4%

Category: Yes - Unknown #

Totals for Category: Yes - Unknown #	# of Breaches: 250	# of Records: 0
	% of Breaches: 50.2	%of Records: 0.0%

2009 Breaches Identified by the ITRC as of: 1/6/2010

Total Breaches: 498
Records Exposed: 222,477,043

The ITRC Breach database is updated on a daily basis, and published to our website on each Tuesday. Unless noted otherwise, each report includes breaches that occurred in the year of the report name (such as "2009 Breach List", or became public in the report name year, but were not public in the previous year. Each item must be previously published by a credible source, such as Attorney General's website, TV, radio, press, etc. The item will not be included at all if ITRC is not certain that the source is real and credible. We include in each item a link or source of the article, and the information presented by that article. Many times, we have attributions from a multitude of media sources and media outlets. ITRC sticks to the facts as reported, and does not add or subtract from the previously published information. When the number of exposed records is not reported, we note that fact. When records are encrypted, we state that we do not (at this time) consider that to be a data exposure. However, we do not consider password protection as adequate, and we do consider those events to be a data exposure.

The ITRC Breach Report presents individual information about data exposure events and running totals for the year. The ITRC Breach Stats Report develops some statistics based upon the type of entity involved in the data exposure.

This project was supported by Grant No. 2007-VF-GX-K038 awarded by the Office for Victims of Crime, Office of Justice Programs, U.S. Department of Justice. Points of view in this document are those of the ITRC and do not necessarily represent the official position or policies of the U.S. Department of Justice.
