Since 1999, the Identity Theft Resource Center (ITRC) has helped victims and consumers navigate the complex environment of identity crime remediation. Our advisors provide preventative information and help victims of identity compromise, theft, and misuse by providing customized plans – free of charge – to address all identity concerns. In addition to being a voice for victims, the ITRC maintains the most extensive repository of U.S. data breach information, provides public research on identity crime impacts, and provides businesses with low-cost tools to help protect the personal information of their team members and customers.
